WHY GSS?

GSS Engineering Facilities and Services offers a wide range of services that help build and maintain property - residential, commercial, corporate, public domain, religious and social institutions and government organizations. Established in 2016, GSS has achieved many milestones through dedication and commitment to building and maintenance needs.

Our team comprises of highly competitive engineers who are quickly accessible and cater to your issues with a feasible and pre-organized plan according to your requirements.

Leading companies all over India, specially in Mumbai and Pune regions have availed of our services and we have established long term associations with major builders. Client care is one of our prime concerns and we ensure expert advice and professional help through online enquiry, booking and support services.
